

## **Unilever responds to the allegations against the Hayel Saeed Anam (HSA) Group**

**04/05/2018**

We are aware of the allegations against the Hayel Saeed Anam (HSA) Group through our regular discussions with Greenpeace. Following recent investigations and monitoring of HSA Group's activity, we concluded early 2018 that the allegations were not being sufficiently addressed. As we did not see progress that complies with our Sustainable Palm Oil Sourcing Policy, we therefore immediately decided to suspend the placement of any new orders from Pacific Inter-Link and Arma Food Industries, HSA Group's suppliers, until the allegations have been satisfactorily addressed by them.

For more information on how we handle allegations of supplier non-compliance please visit our [website](#).
