

Unilever reclassified to Personal Products subsector by ICB

Unilever has been reclassified from the “Food Products” sub-sector into the “Personal Products” sub-sector by the Industry Classification Benchmark panel (ICB), effective as of 22 September 2014.

The reclassification reflects the changes in Unilever’s portfolio over a number of years. The turnover by Category as reported in the 2013 annual results was:

Personal Care	36%
Foods	27%
Refreshment	19% (includes ice cream and beverages)
Home Care	18%

ICB is maintained by FTSE International Limited and is used by a range of other organisations including the Financial Times and stock exchanges such as NYSE Euronext, NASDAQ OMX and the London Stock Exchange.
