Disclaimer: The objective of this palm oil mill list is to increase transparency of Unilever's palm oil supply chain. The work we are conducting on traceability is being conducted in partnership with our suppliers and Rainforest Alliance. The disclosed palm oil mill data and parent company / group linkages is correct to the best of Unilever's knowledge at the time of publication. Although we have made considerable effort to validate the disclosed data, we cannot guarantee its full accuracy and therefore welcome any corrections that may be needed. An additional 158 palm oil mills were declared by our suppliers in 2019 but have now been suspended by Unilever due to grievances brought to our attention alleging non-compliance or due to the fact that it could not be confirmed that these mills were in compliance with the [Unilever Sustainable Palm Oil Sourcing Policy](#) (USPOSP) at a group level and/or the [Unilever Responsible Sourcing Policy](#). Please note that we are not making any accusations of legal wrongdoing with this separate suspended mill list but are sharing that we have sight of data that indicates that certain supply sources are not in compliance with the USPOSP. It is our intention to share accurate and credible data. Should there be any reliable data that is in conflict with ours, then we ask that you share it with us, so that we can assess and make the appropriate corrections. We are working with our suppliers to ensure that these suspended mills are not part of our supply unless appropriate remediation plans have been agreed and are being implemented. The list of suspended palm oil direct suppliers, suspended oil palm growers, and suspended palm oil mills can be found on the [Unilever website](#).
