UNILEVER SUSTAINABLE LIVING PLAN: PROGRESS IN 2017

IMPROVING HEALTH AND WELL-BEING FOR MORE THAN 1 BILLION

By 2020 we will help more than 1 billion people take action to improve their health and well-being. We have helped 601 million people take action to improve their health and well-being.

Contributing to the following Sustainable Development Goals:

HEALTH AND HYGIENE

By 2030 we will help more than a billion people to improve their health and hygiene. This will help reduce the incidence of life-threatening diseases and diarrhoea.

- 601 million people reached by 2017

NUTRITION

We will continue to work to improve the taste and nutritional quality of all our products. The majority of our products meet or are better than, benchmark nutritional recommendations based on national nutritional recommendations. Our commitment goes further; by 2020, we will double the proportion of our portfolio that meets the highest nutritional standards, based on globally recognised dietary guidelines. This will help millions of millions of people to achieve a healthier diet.

- 39% of our portfolio by volume meets highest nutritional standards in 2017

GREENHOUSE GASES

Our products' lifecycle: We help reduce greenhouse gases (GHG) impact of our products across the lifecycle by 2030.

- +9% our greenhouse gas impact per consumer use has decreased around 9% since 2010*

Our manufacturing: By 2020, we will offset all energy from our factories to below 2008 levels despite significantly higher volumes.

- -47% reduction in CO2 emissions per tonne of production since 2008

WATER

Our products in use: Halve the water associated with the consumer use of our products by 2020.

- -2% our water impact per consumer use has reduced by around 2% since 2015*

Our manufacturing: By 2020, all waste sent for disposal will be at or below 2008 levels despite significantly higher volumes.

- -98% reduction in total waste per tonne of production since 2008

FAIRNESS IN THE WORKPLACE

By 2020 we will advance human rights across our operations and extended supply chain.

- 56% of agricultural raw materials sustainably sourced by 2017

ENHANCING LIVELIHOODS FOR MILLIONS

By 2020 we will enhance the livelihoods of millions of people as we grow our business.

- 1,259,000 smallholder farmers

INCLUSIVE BUSINESS

By 2020 we will have a positive impact on the lives of 1.6 million small-scale retailers

- Implement UN Guiding Principles on Business and Human Rights

- Source 100% of procurement spend in line with our Responsible Sourcing Policy and extended supply chain

- Create frameworks for fair compensation

- Improve environmental, health, nutrition and well-being

- Reduce work force injuries and fatalities

- Achieved by target date
- On-plan for target date
- Off-plan for target date
- % achieved by target date

- Our environmental targets are expressed as a ‘per consumer use’ basis. This means a single use, per person, per week, per product.
- In some water-scarce countries representing around half the world’s population.
- In 2017 around 300,000 farmers joined initiatives under both Opportunities for Women and Smallholder Programs.
- Private households, Cooperatives etc.
- Achieved by target date
- On-plan for target date
- Off-plan for target date
- % achieved by target date

- 1,259,000 smallholder farmers
- 716,000 small-scale retailers
- 1.6 MILLION small-scale retailers

- enabling access initiatives aiming to improve livelihoods, practices or increase incomes*
- Improve livelihoods of smallholder farmers*
- Increase incomes of small-scale retailers*
- Increase participation of young entrepreneurs in our value chain*

* Our environmental targets are expressed as a ‘per consumer use’ basis. This means a single use, per person, per week, per product.
* In some water-scarce countries representing around half the world’s population.
* In 2017 around 300,000 farmers joined initiatives under both Opportunities for Women and Smallholder Programs.
