

## SASB Mapping for Unilever Sustainability Metrics

The Sustainability Accounting Standards Board (SASB) has defined industry-specific sustainability standards which identify financially material topics and associated metrics. The table below summarises where relevant SASB disclosures can be found throughout Unilever’s reporting, based on the standards for the Household & Personal Products sector (the sector in which Unilever is normally classified given that this represents the greater share of our turnover).

Topic	SASB Metric	Unilever Disclosures
<b>Water Management</b>	<b>(1) Total water withdrawn</b>  <b>(2) Total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress</b>	<p>We report for operations where material: megalitres of water withdrawn, megalitres of water consumed and the percentage of each in regions with high or extremely high baseline water stress, according to WRI Aqueduct water risk atlas tool.</p> <p>We estimate and report the same information for the full value chain (upstream and downstream) where appropriate.</p> <p>Water disclosures can be found in:</p> <ul style="list-style-type: none"> <li>• <a href="#">Unilever website - Water Performance Data</a></li> </ul>
	<b>Description of water management risks and discussion of strategies and practices to mitigate those risks</b>	<p>A description of our water management risks and strategies and practices to mitigate those risks is disclosed in:</p> <ul style="list-style-type: none"> <li>• <a href="#">CDP Water</a> (refer to Section W4)</li> <li>• <a href="#">Annual Report and Accounts</a> (refer to page 30 and page 61)</li> <li>• <a href="#">Unilever website - Water Stewardship</a></li> </ul>
<b>Product Environmental, Health, and Safety Performance</b>	<b>Revenue from products that contain REACH substances of very high concern (SVHC)</b>	<p>Our Safety and Environmental Centre (“SEAC”) is responsible for ensuring that our products are safe and environmentally sustainable.</p> <p>We describe our product environmental, health and safety policies and practices in our Product Safety &amp; Product Quality Code Policy and</p>

	<b>Revenue from products that contain substances on the California DTSC Candidate Chemicals List</b>	<p>mandatory policies and standards to meet safety and quality commitments. Our approach to the safety of products and ingredients is outlined on the Unilever website - Products and Ingredients.</p> <p>We do not currently track revenue from products designed with green chemistry principles as our objective is to integrate sustainable design across our products in line with a number of green chemistry principles.</p>
	<b>Discussion of process to identify and manage emerging materials and chemicals of concern</b>	
	<b>Revenue from products designed with green chemistry principles</b>	
<b>Packaging Lifecycle Management</b>	<b>1) Total weight of packaging</b>  <b>(2) Percentage made from recycled and/or renewable materials</b>  <b>(3) Percentage that is recyclable, reusable, and/ or compostable</b>	<p>Our plastic packaging disclosures for (1) to (3) can be found in:</p> <ul style="list-style-type: none"> <li>• <a href="#">Annual Report and Accounts</a> (refer to pages 29, 53 and 59)</li> <li>• <a href="#">Unilever website - Waste-free World</a></li> <li>• <a href="#">Unilever website - Waste-free World Performance Data</a></li> </ul> <p>(1) Total virgin plastic packaging footprint in the period from 1 July 2020 to 30 June 2021: 599,000 tonnes</p> <p>(2) Percentage of plastic packaging made from recycled plastic in the period from 1 July 2020 to 30 June 2021: 17%</p> <p>(3) Percentage of plastic packaging that was reusable, recyclable or compostable in the period from 1 July 2020 to 30 June 2021: 53%</p>

	<b>Discussion of strategies to reduce the environmental impact of packaging throughout its lifecycle</b>	<p>A description of our strategies to reduce the environmental impact of packaging throughout its lifecycle is disclosed in our <a href="#">Annual Report and Accounts</a>:</p> <ul style="list-style-type: none"> <li>• Planet and Society (refer to pages 29-32)</li> <li>• Our Risks (refer to page 47)</li> <li>• Climate Transition Action Plan Update (refer to page 53)</li> <li>• <a href="#">Unilever website - Waste-free World</a></li> </ul>
<b>Environmental &amp; Social Impacts of Palm Oil Supply Chain</b>	<p><b>Amount of palm oil sourced, percentage certified through the Roundtable on Sustainable Palm Oil (RSPO) supply chains as:</b></p> <p><b>(a) Identity Preserved;</b>  <b>(b) Segregated;</b>  <b>(c) Mass Balance; or</b>  <b>(d) Book &amp; Claim</b></p>	<p>By the end of 2021, we sustainably sourced 90% of our core palm oil volumes, with 86% coming from physically certified sources: RSPO Mass Balance, RSPO Segregated or an equivalent standard that is independently verified by a third party. We buy the remainder from RSPO independent smallholder credits, in which we continue to be one of the largest buyers of these credits. Palm oil disclosures can be found in:</p> <ul style="list-style-type: none"> <li>• <a href="#">Unilever website - Sustainable and Deforestation-Free Palm Oil</a></li> </ul>
<b>Activity Metrics</b>	<b>Units of products sold, total weight of products sold</b>	We do not disclose total number of units sold as our product portfolio is so broad and diverse that an aggregate figure would lack relevant context or application.
	<b>Number of manufacturing facilities</b>	We occupy around 280 factories. See our <a href="#">Annual Report and Accounts</a> (refer to page 12)
